

PROJECT: Promoting Climate Change Adaptation and Integrated Water Resources Management Investment in the water sector in Latin America in the framework of the Spanish Cooperation Fund for Water and Sanitation (FCAS)

COUNTRIES:

Argentina, Bolivia,
Colombia, El Salvador,
Honduras, Nicaragua,
Paraguay, Peru

LEAD INSTITUTION:

AECID

PARTNERS:

IDB

EU-LAIF

TOTAL COST:

€ 615 300 000

LAIF CONTRIBUTION:

€ 15 300 000

TYPES OF SUPPORT:

Investment grants
Technical assistance

DURATION PERIOD:

Dec 2013 – Dec 2019

DESCRIPTION OF THE MULTICOUNTRY PROJECT:

The LAIF contribution aims to improve water and sewerage infrastructures and contribute to reduce the risks of diseases caused by water management in the Latin American region through the development of various projects. These are grouped into two components: Component I, projects for Adaptation to Climate Change (ACC) and Component II, projects for the Integrated Management of Water Resources (GIRH).

The projects consist of the reinforcement of capacities associated with the programs, studies developed in the pre-investment phase to identify new investments in new actions, review of regulations and the development of methodologies, tools and manuals, which in turn will have an impact on future investments.

SPECIFIC ACTIVITIES IN ARGENTINA:

- Integrated management plan for flood management and control in the Medrano Creek Basin (CAM).

SPECIFIC ACTIVITIES IN BOLIVIA:

- National inventory of wastewater treatment, characterization and database.
- Support for the implementation of the Master Plan for the Katari Basin of Lake Titicaca.

SPECIFIC ACTIVITIES IN COLOMBIA:

- Construction of hydraulic-sanitary installations in homes in the south-eastern area of the city of Cartagena de Indias.
- Investment Plan "All for the Pacific".
- Bastida rain collector in Santa Marta tourist district.
- Environmental and Traditional Cordon of the Sierra Nevada de Santa Marta.
- Multiveredal Integral del Pacífico.
- Water and sanitation program for the rural sector.
- Expansion of the El Bosque drinking water plant and supply of the neighborhoods of the southwestern area of Cartagena de Indias.

SPECIFIC ACTIVITIES IN EL SALVADOR:

- Component Integrated Water Resources Management (IWRM): Condominium Water and Sanitation Projects.
- Component Adaptation to Climate Change: Support to the Strategic Planning of the Stormwater Drainage Sector in the SSMC, El Salvador.

SPECIFIC ACTIVITIES IN HONDURAS:

- Support for the implementation of the Emerging and Sustainable Cities Initiative in Tegucigalpa. Prefeasibility studies of sanitation and drainage of the city of Tegucigalpa.

SPECIFIC ACTIVITIES IN NICARAGUA:

- Component Integrated Water Resources Management (IWRM): Condominium Water and Sanitation Projects.

SPECIFIC ACTIVITIES IN PERU:

- Support for the preparation of the flood control and storm drainage program.

EXPECTED RESULTS OF THE MULTICOUNTRY PROJECT:

Support the inclusion of Adaptation to Climate Change measures (especially in relation to extreme events such as droughts and floods), both in policies and investments related to the water and sanitation sector; and to influence the development of policies and investments of the sector through the promotion of solutions adapted to the needs and capacities of the population.
